**Impact of the 2024 Noto Peninsula Earthquake (3rd report)**

Zeon Corporation

Our thoughts and prayers are with everyone who has been affected by the 2024 Noto Peninsula Earthquake and particularly with those who lost family members or friends as well as first responders and others involved in recovery efforts. Additionally, we extend our deepest gratitude to all those involved for their kindness and support following the disaster.

Zeon Corporation is pleased to announce that the Himi Futagami Plant, which suspended its operation due to the earthquake, fully restored its production lines on March 29 and resumed product supply in April. Other sites and Group companies have also resumed operations, as previously announced in [the second report](#) on January 12, 2024.

We regret any concerns or inconvenience that may have arisen for our business partners, and we appreciate their support in a number of areas while we worked toward full restoration.

**Status of operations in Hokuriku area**
